

## Sphinx – BSI partnership

### Sphinx Déclic Online software

A card with the access codes has been sent to you.

Web address : <https://sphinxdeclic.com>

**Sphinx Déclic** will help you build a form, collect data and analyze it.  
The main use is to build a questionnaire distributed online and to analyze the answers.  
It can also be used to build a form to transcribe interview content and code it.

Choice of language: at the bottom right of the home screen

#### Getting started video :

Questionnaire design : <https://youtu.be/tqwQqKfrnfg>  
Dissemination and data collection : <https://youtu.be/0JHgyaQz6ic>  
Data visualization and data analysis : [https://youtu.be/KG\\_cCwmgxUw](https://youtu.be/KG_cCwmgxUw)  
Sphinx video chanel : <https://vimeo.com/lesphinx/portfolios>

#### Paper tutorial

Déclic GB : <https://infos.lesphinx.eu/DOC/SphinxDeclic/en/Content/Home.htm>

Data visualization : EN : <https://infos.lesphinx.eu/doc/Dataviv/en/Content/Home.htm>

### SphinxIQ2 Windows software.

Access to this software is on request. It is only justified if you feel limited in the possibilities offered by Sphinx Déclic for:

- the layout of the questionnaire
- the use of sophisticated analysis methods such as structural equation modeling
- automatically importing transcripts of interviews or documents in Word format
- conducting automatic semantic analyzes.
